

Hard Fix

Hard Fix is a multifunctional, versatile, high mechanical strength epoxy adhesive with advantage of outstanding chemical and moisture resistance.

■ Hard Fix can be used as ■

- Bonding agent for:
 - Prefabricated concrete element (e.g. segmental concrete bridge).
 - External reinforcement.
 - Steel plate stiffeners to concrete & steel structural members.
 - External marble wall finishes, tiles or bricks.
- Sealant for tile joints pointing.
- Anchoring grout for reinforcing steel.
- Pre-stressing cables in concrete and rock.
- Repairing material for concrete cracks.
